THE WORLD SHINES AT FIRST SIGHT

Rethinking the relationship between a superyacht and her environment was the main idea which inspired Project Light.

Extraordinary outdoor spaces, breathtaking views from both inside and outside and extreme balance and neatness of lines in the quest for utmost elegance and visual lightness: these are the key elements of Project Light.

The upper deck is fully dedicated to the Owner, with an incredible 270-degree outside view from the Owner's Suite, which is directly connected to the forward looking terrace and the spectacular private "beach" with the flush-with-deck pool.

Featuring 640 m² of free teak decks, including 240 m² of aft open space on the Main Deck, 770 m² of luxurious accommodation "wrapped" in 200 m² of glass surfaces, Project Light represents a new philosophy in the superyacht world.
